Norsk Grotteblad nr 59, Desember 2012

Karstgrotter i Vallerdalen, Røyrvik kommune

Karst caves in Vallerdalen, Røyrvik, Nord-Trøndelag

The article details have been abstracted from the author's Norwegian cave index and bibliography which was started in 1963 by David and Shirley St Pierre. Note that some caves may be duplicated. The main features Marmorbrua (Landbrua) and Marmorkjerka (Marmorgrotta) are shown on the map and mentioned in the annual NAF Veibok. Some references which only mention a visit to the caves have been omitted. For many of the features coordinates, altitude, length, vertical range and surveys remain to be recorded.
