Stromdalshølet

Stormdalshølet

This article describes a trip to Stormdalshølet and the surrounding area. Three persons went on the trip, and after a rather wet crossing of a river they were supposed to be on the other side of, they reached the cave. Some rain in recent days had raised the streamway, and they had to stay near the walls, bringing on some obstacles. When even one of the visitors spare light failed at one tricky part, the spirits were low for a second. As one could expect, the rest of the party noticed the situation and came to her rescue. Afterwards they visited Jordbruhølet and had a surface lunch with some others from the main camp.
