Mørkets gjerninger

Mørkets gjerninger

Sums up Caving events in Norway the last 8 months, of which we are particularly pleased with the "inclusion" of the Troms county cavers in our organisation Stein Erik and Idar toured Troms last summer for a fortnight. Troms has a lot to offer in terms of limestone. New caves have been found near Setså in Salten and in the vicinity of Sverrehola in Kobbelv. Events for next summer, planned by Stein Erik, include South Nordland and Troms. Assistance by "local cavers" is wanted.

The main event this year will be the NGF - annual meeting, for the first time in the summer. Most likely it takes place in Grane, hopefully with British cavers present, 10.-12 of July.

We hope that foreign cavers like Simon Botrell publish their news in our Magazine and also seek cooperation with NGF and cavers in Norway. Our capacity to deal with complex requests may still be limited, but it needs to be challenged in order to grow!
