Grottedykking i Glomdalen

GRDTTedykking i Nordland

By Ronny Arnesen. The preparations, film shooting and eventually the dive through the "Jordtulla" system 580 m, by the English - Norwegian team, is described. The diving team consisted of Jim Abbot, Geoff Crosley, Andy Ive, Dag Grepperud, Stein Johnsen and the author. The team cooperated very well and the not so experienced Norwegian divers benefited greatly from diving in pairs with the more experienced British cave divers.
