Shirley St.Pierre 1942-87

Shirley St. Pierre

On June 22nd, 1987 Shirley St. Pierre died, at the age of 44. She was truly enthusiastic about Norway and an indispensable companion. With her husband David she spent 18 summers caving in Norway. Andrew, Paul and Tanya came along with them from their infancy.

Shirley and David made an impressive effort in compiling and publishing material on Norwegian caves. Our deepest sympathy to David who shall have to resume this cooperative effort singlehanded.
