Info fra Beiarn Grotteklubb

Information from Beiarn Grotteklubb.

The club is small, but active. A caving course was arranged during the summer. Tollåura was visited. A new bridge was built over Rønnåga. Arrangements for children during the "wilderness days" in August were a great success. Also, the visit to Trolia was a success. Among the visitors were David and Andrew St. Pierre. A lot of new equipment has been acquired during the year.
