Nedløpet til Læigasvatn

The Læigasvatn sink

Stimulated by the article by Noguès in NGB no. 45, p. 31-33, David St. Pierre has provided an annotated bibliography to record other descriptions and visits to this impressive cave. In all, 13 items are listed. They span from Helland 1907 to personal communication from Brattli, the latter describing a visit in March 2006.

Shirley and David St. Pierre started the Norwegian Cave Index and Bibliography in 1963. The enterprise has proved of inestimable value to speleology. For recent publications see NGB no. 40, p. 3-9 and p. 14-19, and NGB no. 44, p. 3-12, and NGB no. 45, p. 3-22.
