Svarttjernsgrottene: Hovedhulen

Svarttjernsgrottene: Hovedhulen

The cave is situated above the village Krokstadelva, north of the city Drammen. Follow the sign to Hovjordet. Park on right hand side, and go on for 100 meters, then take right uphill a fenced road. Pass Inntaksdammen and Borgetjern. The footpath leading to the caves might be tricky to find. You may just go on to Svarttjern, and then follow the stream to the sink. There are several other small, low and narrow caves in the area. Warning! The stream is drinking water for the village, so no pollution
