

Gildrehulen

Gildrehulen

This karstic cave is situated at Varaldsøy in Hardangerfjorden. Follow the ferry to the island, and follow the road to Gjuvsland. The cave sink is at the bottom of a doline, at the left hand side of the road. The entrance part is wet and low. It widens up downstream to a small hall. A sump is in the other end of the hall. There are several other small caves on the island.
