Løvstadgrotta

Løvstadgrotta

The cave is situated in the valley Gråtådalen, Beiarn community, a valley with more than 70 surveyed caves! This cave was surveyed in 1966 by David St. Pierre and members of Cave Research Group. Drive to Storjord in Beiarn and follow the signs for Løvstad Gård. The cave is famous for its 2 lakes, which can be visited by boats. Ask for guiding or renting the boats at the farm.
