Ville hesten

Ville hesten

This is an active stream cave, situated in Trolia, on the west side of Beiardalen. Follow the main road to Trones, to Beiarn Turistsenter. Here you can rent a key for access to the road towards the cave. Park by Heståga Dam, and follow a tractor path for 200 meters, until a footpath leads on to the left hand side. The entrance is on the left hand side after 5-600 meters. A thru trip is possible to be made. Warning! The stream rises quickly with heavy rain!
