Ville hesten

This is an active stream cave, situated in Trolia, on the west side of Beiardalen. Follow the main road to Trones, to Beiarn Turistsenter. Here you can rent a key for access to the road towards the cave. Park by Heståga Dam, and follow a tractor path for 200 meters, until a footpath leads on to the left hand side. The entrance is on the left hand side after 5-600 meters. A thru trip is possible to be made. Warning! The stream rises quickly with heavy rain!
