Grotter i Tromsdalen ved Tromsø

Caves in Tromsdalen, Tromsø

There are several caves in Tromsdalen, just a few kilometres from Tromsø city. Also ahead into Djupdalen and Tromsdalstinden there are karst areas and several smaller caves. Access: From Turistvegen is it 4 km and 370 m altitude to Øvre Svarthammergrotte. Follow the forest road 2,5 km to the junction Dalheimskrysset, and so on straight uphill to the bend on a power line. Due to heavy snow, it is recommended to wait until July for a visit.
