

Grottevern på dagsorden i EU-parlamentet

Cave conservation in EU

Last year, the European Cave Protection Commission (ECPC) put cave protection and conservation on the agenda of the European Parliament. A declaration about cave protection was presented to the Parliament. The goal was to get a majority of the 785 Members of the Parliament to sign the declaration, but unfortunately only 140 did. November 11th and 12th the ECPC were campaigning in front of the Parliament to gain signatures for the Declaration, this campaign included a press conference November 11th.
