Første gjennomgangstur mellom Bjørndalshola og Bjørndalssjakta

The first through trip between Bjørndalshola and Bjørndalssjakta

Shortly after the connection was established, a through trip was arranged. A team of five went from Bjørndalshola to Bjørndalssjakta whilst four made the trip in the opposite direction, both parties completing the through trip in about four hours. On the way out of Bjørndalssjakta some of the rubbish that has unfortunately been deposited there was removed. Future parties are encouraged to contribute to the clean-up work.
