

Grottevern i vernebestemmelser for nasjonalparker og naturreservat

Cave protection as the aim of conservation areas

In the national parks Breheimen, Børgefjell, Lomsdal-Visten, Saltfjellet-Svartisen and Sjunkehatten, in the nature reserves Krona, Sandågjelet and Sandågrotta and in the proposed protected areas Rohkunborri and Sundsfjordfjellet, the protection of caves and karst is a part of the aim of the conservation and/or a part of other regulations for the areas.
