Trevor Faulkner's 70th Party 1st-5th June 2012

This was a special event this year, to celebrate a Big Birthday and to commemorate the completion of the Final South Nordland Expedition in 2011. After 26 expeditions and the discovery of 100s of caves with over 50 km of cave passage, the cavers ran out of easy targets and can now concentrate on their memoirs. Trevor's party was a great success despite the weather. About 80 SWETC Caving Club, South Nordland Expedition cavers and members of his running club attended the party, which was held at Wilmslow Rugby Club.
