Norgessamlingen og Fjellmøtet på Fauske 2012

Karst Norgessamlingen and Fjellmøtet, Fauske 2012

Kimmo Suomalainen from the Finnish Caving Society describes the tours he joined during the gathering in Setså in Nordland. After that he and several others went to Sjørdalen in Troms where they searched for new, unknown caves. Some promising holes were found, even a couple of new (but unfortunately small) caves were explored.
