

Norsk Grotteblad nr 7, 1981

Begrenset adgang til fredede grotter

Limited access to nature-protected Caves.

Gated caves in Rana are listed, as well as the persons who have the right to borrow the keys. New restricted rules are made for access, because of earlier and recent negative experience (particularly for the caves themselves). A debate on what to be done with new discoveries needing nature protection is invited. Is it a point not to publish such discoveries?
