En bursdagshilsen fra David St. Pierre

Birthday greetings from David St. Pierre

A thanks from David to all of you for the greetings for his 80th birthday. On his birthday, Andrew, Aline, Tanya, David and David went to Valley Entrance, an easy cave in Kingsdale, situated only 50 m from the road. He enjoyed visiting this 400 m long Roof Tunnel Passage. It is an abandoned phreatic tube which enters the West Kingsdale Master Cave System stream passage at a 10 m pitch. It is generally level and involves some stooping and crawling through pools up to thigh deep.
