

Norsk Grotteblad nr 44, Mai 2005

Status Tjoarvekrajgge 2004

Tjorve 2004

A total of 1,095 m was mapped in 2004. Total cave length is now 17,813 m. Mean sight length decreased from 5.6 in 2003 to 4.9.

In the autumn of 2004 Tjorve was no. 222 in length in the world, in April 2005 no. 224.

The routine of transferring data from Excel to Compass is steadily improving. For the first time in history of Tjorve updated maps were available after each session.

All the mapping schemas of Tjorve are now scanned with 300 dpi and stored in .Jpg-format. The more then 350 scanned schemas need 282 Mb of storing space.
