Kvithola

Kvithola
This sporty cave is situated close to the famous Svarthammerhola, SE of Fauske. Follow the road to Sulitjelma, intersection of E6 at Finneid, just south of Fauske. Park by the first road tunnel, and follow a footpath uphill, that leads to Svarthammarhola. Follow the path just 100 meters, and take right before the path crosses a stream. Go on for 10minutes and turn right for a prominent mountain ridge. The entrance is by the foot of a steep mountainside. Ice covers the entrance in winter and spring. The cave in clean, white marble, especially the entrance series is beautiful.
